Dime

Nielsen's Heuristic	Pros	Cons					
	Description	Description	Severity	Frequency	Impact	Average	Ranking
1	**Great visual feedback** when the user adds expenses or does a settlement	**No loading indications.** No friendship cofirmed, no notifications	1	2	2	1.666666667	2
2	**The name association** and user profile images are really good. Helps to make the process feel realistic of payin somebody back.	**Little to no preset options** avalible for budgeting and expenses	1	2	1	1.333333333	1
3	**Everything is within two clicks,** the save and done buttons allow users to verify before having made a permant decision	N/A	N/A	N/A	N/A	N/A	0
4	**Fluid Desing:** Design is fluid across the entire platform, is smart and sharp	**Unexciting Colour theme,** could be slightly more exciting	2	5	2	3	4
5	**Approprite field entry:** Fields vary between dropdown and select tabs where appropriate.	**Numeric field lacks validation:** Unsure if numeric fields have validation	3	2.5	3	2.833333333	3
6	**Uses prompting systems** and fields contain dropdowns to help with this selection state. Symbols help a lot	N/A	N/A	N/A	N/A	N/A	0
7	**Plenty of shorcuts,** with the main task bar being present on every single page at hte bottom is an excellent feature.	N/A	N/A	N/A	N/A	N/A	0
8	**Clean and minimalistic,** most pages are simple and initiuative to use.	**Complex Group budgeting**	3	2	3	2.666666667	3
9	**Fields have basic validation** in the form of selection tools.	**Numeric fields lack validation** options	2	2	2	2	2
10	N/A	**No help section,** no example error messages	5	5	5	5	5

Jet Finance

Nielsen's Heuristic	Pros	Cons					
	Description	Description	Severity	Frequency	Impact	Average	Ranking
1	N/A	Little to no visual feedback	5	5	2	4	4
2	**Colours are great,** and preset categories are really helpful, the narrow scope of budgeting design pays off	No interaction with I owe yous etc, no income handling	2	2	2	2	2
3	**Good navigation,** Can get to everywhere from the hamburger	N/A	N/A	N/A	N/A	N/A	0
4	**Design is consistant** across all screens	Income section is shown but not accessbale	5	2	5	4	4
5	**Field validation looks good,** dropdowns help to ensure incorrect fields can't be added. Field validation with password confirmation is an excellent feature	No way to undo	3	2	4	3	3
6	**Symbol intuition** is excellent for usability.	N/A	N/A	N/A	N/A	N/A	0
7	**Quick finance feature** is awesome for quickly doing finance	N/A	N/A	N/A	N/A	N/A	0
8	**Design is consistant** throught	**Poor designed Text boxes and buttons:** Text boxes can lylook a little janky. Buttons look bland	2	2	1	1.666666667	2
9	**Good field validation** with dropdowns	**Some lack field validation** - eg monetary	2	2	2	2	2
10	N/A	**No help sections**	5	5	5	5	5

Young and Broke

Nielsen's Heuristic	Pros	Cons					
	Description	Description	Severity	Frequency	Impact	Average	Ranking
1	**Directional slideshow effecitvely** removes the need for users to learn app navigation	N/A	N/A	N/A	N/A	N/A	0
2	**Real world Monetary examples** such as education and flatting etc are all excellent.	**Limited examples,** and lumping costs **all together** as "other costs" feels poorly designed when users may have many different types of expenses that t they don't want to list under one title.	3	5	4	4	4
3	**Design between personal and flatting is good,** additionally being able to **see previously recorded information is good**	No way to edit specific values	2	2	3	2.333333333	2
4	**Design is consistent once logged in.**	**First splash screen is inconsistent** with the rest of the app	2	1	1	1.333333333	1
5	**Clear number validation**	**Inconsistent selection tools with numbers**	2	2	2	2	2
6	**Clear questions make for easy reminding.** Titles are excellent throughout the app design	**Forward and back buttons are positioned awkwardly.** are forgettable	2	4	1	2.333333333	2

7		N/A	**All fields must be filled out for calculations**, requires the user to have a lot of time dedicated at once, as they have to enter all their expenses each time.	5	4	4	4.333333333	4			
8		**Minimilistic** 100%	**Lack of features** feels to compromise the usability and purpose of the app	3	3	3	3	3			
9		**Basic form validation**	**No error handling** messages	3	2	2	2.333333333	2			
10		**Questions are relatively intuitive** to display what the page wants you to answer	**No help section**	5	5	5	5	5			

Nielsen's heuristics			Key	
1	Visibility of system status		Severity	How good/bad is the issue?
2	Match between system and the real world		Frequency	How much of the system is affected
3	User control and freedom		Impact	How much of the system's core functionality is affected?
4	Consistency and standards			
5	Error prevention		Ratings	
6	Recognition rather than recall		1	Lowest
7	Flexibility and efficiency of use		2	Low
8	Aesthetic and minimalist design		3	Moderate
9	Help users recognize, diagnose, and recover from errors		4	High
10	Help and documentation		5	Severe
